Advanced MRI Services at multiple, convenient, non-hospital locations

Trained, experienced ARRT-registered technologists perform tests

For the convenience of physicians and patients, Neurology and Neuroscience Associates (NNA) offers fully accredited advanced MRI services at two locations.

Board-certified physicians, neuroradiologists, registered radiologic technologists and trained, experienced medical staff utilize the latest high-field MRI equipment at NNA's facilities in Akron and Hudson.

Comprehensive examinations are performed by MRI technologists who are certified by the American Registry of Radiologic Technologists (ARRT). Board-certified radiologists or neuroradiologists interpret the results. A neurologist is always onsite during scans.

Timely reports

Each exam is tailored to the patient's specific symptoms and the referring physician's requests. Physicians receive timely reports.

Both NNA locations offer 1.5 Tesla high-field, high-definition, 8-channel systems with advanced HD clinical applications for maximum image clarity and detail as well as patient comfort.

With the availability of multiple MRI machines, patients receive the time and attention they need. Our caring, courteous staff ensures that each patient has a positive experience. We do not rush the patient or the exam.

Easy, convenient scheduling

For referring physicians and/or patients

- Call our scheduling hotlines
Akron: 330.376.1902
Hudson: 330.342.4020 (Akron area)
330.656.1600 (Cleveland area)
- Submit requests online at www.nnadoc.com/appt.shtml
- Download our handy, online MRI Services' Physician Order Form at <http://www.nnadoc.com/mriorder.pdf>

Why refer patients to NNA Advanced MRI Services?

- American College of Radiology(ACR)-accredited facilities
- Superior image quality
- Two high-field, high-definition, 8-channel MRI units
- Ability to scan all body parts
- ARRT-registered technologists
- Convenient scheduling
- 24-hour turnaround of results
- Board-certified radiologists read and analyze scans
- Neurologist on-site during test
- Coordination of MRI and other neurological testing under the same roof on the same day
- Non-hospital setting
- Free, wheelchair-accessible parking
- Most major insurance plans accepted
- Neurological, total-body, extremity, and specialty imaging

NNA's Advanced MRI Services offers specialty advanced scanning for

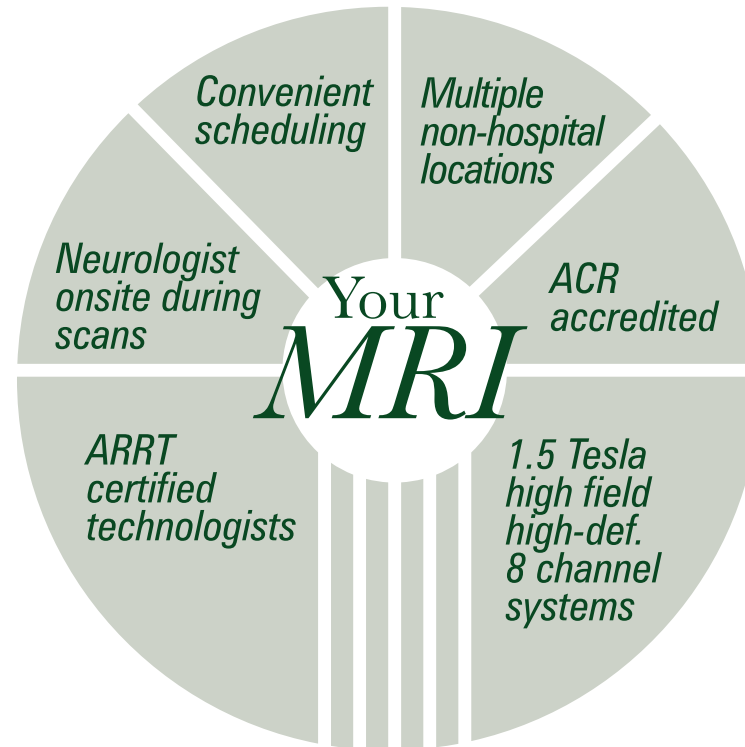

- Stroke
- Dissection
- MS
- Seizures
- Pituitary
- Orbit
- TMJ
- IACs

ACR-Accredited Facilities and ARRT-Registered Radiologic Technologists

Quality care and patient safety are our top priorities. NNA facilities and personnel undergo continuous evaluation and training to meet the highest standards of care and performance.

Our MRI facilities have met ACR's rigorous evaluation of personnel qualifications, equipment performance, effectiveness of quality control measures and quality of clinical images.

To assure safe and effective patient care, our Registered Technologists have completed AART educational requirements and abide by its stringent ethical standards.
