April 7, 2008

Dear Fellow Colleague;

We regret to inform you that **Robert Lada, M.D.** will be leaving our practice effective July 6, 2008. Dr. Lada will be moving his family and career to Anchorage, Alaska. Dr. Lada is an excellent physician and human being who will be missed greatly by NNA and the community.

We at NNA remain committed to serving you and your patients' neurological needs. Any of your patients currently seeing Dr. Lada will be carefully transitioned to another physician in the group based on their specific needs. In addition, physician resources will be allocated to cover the locations Dr. Lada was practicing from – Hudson and Akron.

We are happy to announce that we have three new neurologists starting with us in July this year. All three have subspecialty training and interests, and all practice general neurology as well. They are:

- **Susana Bowling, MD**
 - Stroke and neuro critical care specialist
 - Residency and fellowships from University of Alabama at Birmingham
- **Ryan Lynch, DO**
 - Neuro rehabilitation specialist
 - Residency from Hamot Medical Center in Erie, PA
 - Fellowship at HealthSouth Rehabilitation Hospital of Erie
- **DeRen Huang, MD, PhD**
 - Neuro immunology, multiple sclerosis and research interests
 - Neurology residency and research fellowship from the Cleveland Clinic Foundation.
 - PhD in Neuroimmunology from Karolinska Institute, Sweden

In addition, we have nine other highly trained neurologists in the practice at locations throughout northeast Ohio that are available for you and your patients. For more information on our locations, services and providers, please visit our website at www.nnadoc.com.

Please be assured we will do our very best to make this transition easy for you and your patients, and will continue to provide the highest level of neurological care and service you expect. We wish Dr. Lada the best of professional success and personal happiness.

Sincerely,

Lawrence M. Saltis, M.D.
