June 30, 2009

Dear respected colleague:

We are happy to announce that the physicians at Neurology & Neuroscience Associates, Inc. will be returning to provide Neurology services at **Summa Barberton Hospital** and **Summa Wadsworth-Rittman Hospital** effective July 6, 2009.

We are working in cooperation with Summa Health System on the integration of the Neurology service lines at these two hospitals with the Neurology & Stroke programs we have developed on the main campus at Akron City Hospital. We think this integration will elevate the quality of care at the community hospital settings, and allow patients to be treated where it's most convenient and safest for them.

We will be making daily inpatient rounds, will be providing 24/7 on-call services, as well as providing neuro diagnostic testing at the hospitals. We plan to begin an outpatient neurology clinic at the Wadsworth Hospital Outpatient Department in August.

If you would like to request a consultation from one of our physicians, or would like to refer a patient to our office, please call 330-376-1902 option 1 for the Akron/White Pond offices, or 330-723-2700 for the Medina office. If you reach us during lunch or after hours, please select the option to contact our answering service.

We look forward to continuing to elevate the quality of care and service to our communities together.

Sincerely,

*The Physicians and Staff of
Neurology & Neuroscience Associates, Inc.*
